

CROSSING BRIDGES

Therapeutic Riding Center

HORSE SPONSORSHIP | *Peaches*

MEET PEACHES

Peaches has joined us back at Crossing Bridges in September 2022 after being gone for nearly five years. She was too young to be a solid therapy horse the first time she was here. Peaches is now 12-years-old and is much more mature after spending the last five years as a show horse for two young girls.

This beautiful girl is a 14 hh Palomino Morgan. She is the last offspring of one of our founding horses of Crossing Bridges, Lexy. Peaches holds a very special place in the hearts of many of our longtime students who knew Lexy and learned to ride on her!

Peaches is loving all of the attention she is getting being back at Crossing Bridges. She is very social but also takes her job seriously. She has been very safe and willing to do everything we ask of her. Peaches has been able to do leadline and independent lessons for our students who are ready for a challenge.

We are all excited to have Peaches back in our program! She will now have a chance to shine here. We are thankful to have RW Robinson and Roe Motors sponsoring Peaches care each month.
