HORSE SPONSORSHIP | Scooby

MEET SCOOPY

Scooby came to us at Crossing Bridges in July, 2019 from Astoria, Oregon. He is a 21-year-old Morgan Gelding; Scooby stands 15.3 hh and is Bay in color. Everyone at the barn has already fallen in love with this sweet boy and his gentle nature. He has settled in quickly to our program and has been very welcoming to new and old students.

Scooby has an extensive show background on the Morgan Horse Circuit, along with 4H experience. He has been a lesson horse for many years and truly connects with children. Scooby has a beautiful, smooth, big trot and ground-covering walk with a lot of movement that really engages our students and keeps them focused on their tasks.

This sweet boy stands very quiet for grooming and tacking which really helps our students feel safe and calm. His background in Showmanship (ground-work) has made him a phenomenal lead-line horse for Crossing Bridges as well. Scooby is very versatile in what he can provide for our students and we are very thankful we were able to purchase him with funding from our generous donors.

Due to being used extensively throughout his 21 years, Scooby does have some arthritis that requires special joint supplements and herbs to keep him comfortable and able to do his job well. He is also a big eater! We are so grateful to have Shawntai Chapman sponsoring his care.

Thank You
