

CROSSING BRIDGES

Therapeutic Riding Center

HORSE SPONSORSHIP | *Scooter*

MEET SCOOTER

Scooter joined us in October 2019 from Albany, OR. He is a beautiful 15.2 hh Paint, Quarter Horse. Scooter is 24 years-old and weighs 1200 lbs; he is our biggest horse at Crossing Bridges. He is very strong and stout which makes him a great horse for carrying riders who struggle with balance/coordination.

This boy became a quick hit with our students due to his loving personality and gentle nature. Even though Scooter is big, he is very well-mannered and respectful. He loves spending time with our students and bonding with them. Scooter stands very quiet for grooming and loves to be spoiled.

Scooter has an extensive background in 4H and High School Equestrian events. He competed at the State level in both over the past few years with his previous owner. These things have given him the experiences and training needed to be a very successful therapy horse here in our program. Scooter is extremely level-headed and nothing seems to faze him!

Due to being used extensively throughout his 24 years, Scooter does have some arthritis in his left hock that requires special joint supplements and herbs, as well as expensive shoeing to keep him comfortable and able to do his job well. We are so grateful to be able to give Scooter the excellent care he deserves through a generous sponsorship by Ron Clack.

Thank You
TO SCOOTER'S SPONSOR
